Since the reporter is writing about a Senate Hearing I wanted to touch base with all of you.

My understanding is - the short answer is - Yes, that's correct. Any additional information I should include with the response?

Bonnie

Reporter call.

Justine McDaniel of Capital News Service

202-628-1677

She was attending a senate hearing on the W.Va. chemical spill. Someone answered that there is no way of knowing how many above ground storage tanks are near waterbodies. She wants to know if this is correct.

She's on deadline today.
